

Starting the Steep Climb to Vladivostok and Beyond

Anand Seth

GTI Senior Adviser

April 20th, 2010

Creating Political will among TRCs and Supporters

- Convincingly Answering the questions:
 - What do I gain/lose?
 - Will we succeed?
 - What needs to be done by who?
 - Am I exposed alone?
 - What will it cost?
 - How will I pay for it?

Tiger: The face of Biodiversity

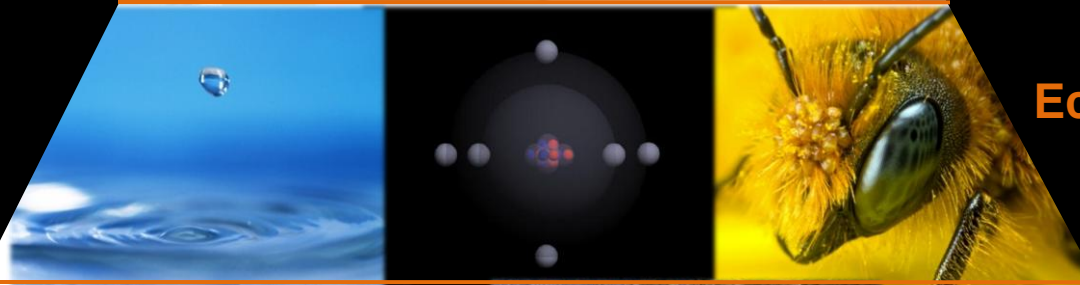

Panthera tigris

Vast, widely variable habitats

Pan-Asian biodiversity

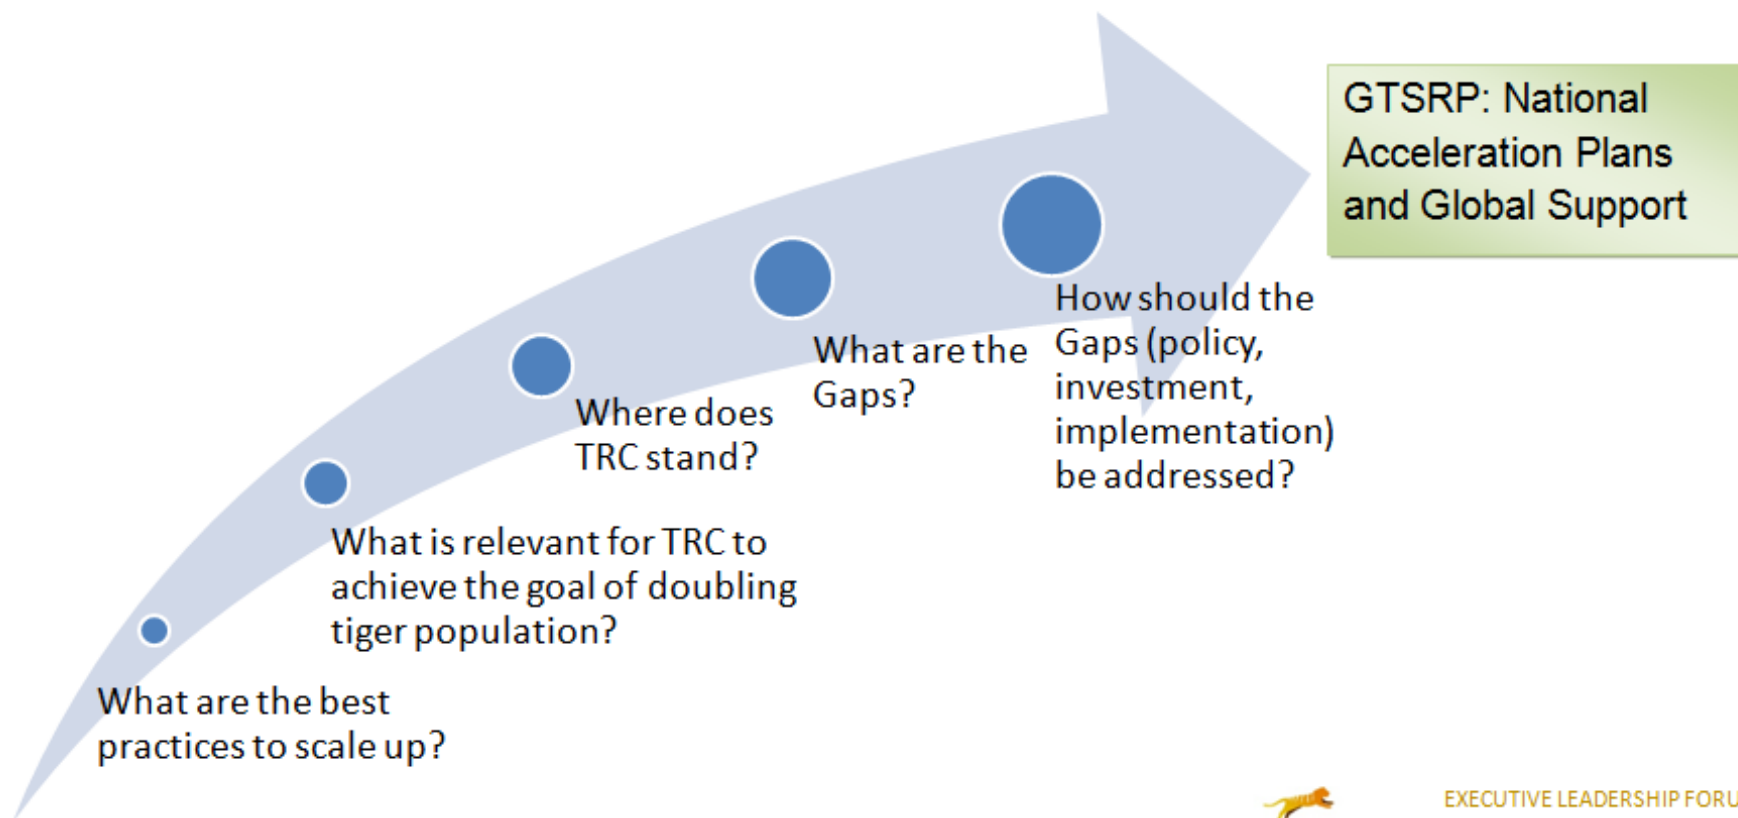

Ecosystem services

Livelihoods

FROM BEST PRACTICES TO ACTION PLANNING

The Three questions

- **Where** are we going?
- **Why** are we going there?
- **How** are we going to get there?

Where are we going?

GTSRP, building on National plans, as the Road Map

- **Accelerating implementation of National Tx2 strategies.**
 - Focusing on critically needed policies, capacity and expenditures
 - Scaling up known good practices from within TRCs.
- **Implementing Global support actions for**
 - Controlling illegal wildlife trade
 - Eliminating demand for tiger parts.
 - Sharing knowledge.
- **Creating Flexible financial support mechanisms**
 - To suit new and traditional donors.
 - To match demand and supply of good ideas over the years
 - Donor preferences for themes/countries will be important.
- **Implementing robust Monitoring Systems**
 - Starting from the Reserves upwards
 - Annual Reporting to Summit participants
 - Recognizing Performance through Annual Awards.

Why are we going there?

To be credible and convincing to Summiteers.

- Progress in K and HH, yes indeed.
 - Agreed Goal is Tx2 in 2022.
 - Created a powerful partnership.
 - Know what to do and scale up selectively.
 - Have lined up Interpol/Others to cause.
- Many NAPs and equivalents exist
 - Only 2 TRCs have Tx2 as stated Goal.
 - Last 12 years of decline do not build confidence re Tx2.
 - We are convinced, now we need to convince others!
- Summiteers – TRCs Leaders and Funders are waiting.

How Can 13 NAPs capture Tx2?

- Do we Redo all NAPs?
- Can we present NAPs as they exist?
 - Without Tx2?
 - Without new ideas generated in K and HH?
 - Without project costs?
 - In Non-uniform format?
- Need Short Strategic Scale Up Ideas
 - Selective and Forceful Game Changing Ideas central to Tx2.
 - Rough order of magnitude costs to move ahead.
 - Reasonably Uniform format.

Recent Bank review of GTSRP outline

- Why focus on a single species?
- Is the Goal feasible?
- Are TRCs ready to lead?
- Are supporters lined up?
- Are there resources to back this up?

Can GTSRP provide convincing Answers?

- GTSRP needs to
 - Remind of the Crisis and Why Tiger.
 - Build on Foundation of National Plans, presented uniformly.
 - Demonstrate the physical feasibility of Tx2; priority landscapes.
 - Demonstrate the “how to” feasibility of Tx2.
 - Demonstrate scaling up feasibility : focused and selective effort.
 - Support national effort with vital cross boundary support.
 - Demonstrate that capacity exists or can be created.
 - Show costs and how they can be financed over time. PES concepts.
 - Show sound management, monitoring and feedback systems.
- How can the outline be improved?
 - TRC specific success stories.
 - Better articulation of ecological/economic benefits.
 - Better demonstration of where Infrastructure is encroaching.
 - More knowledge about illegal trade hot spots.

HOW are we getting there?

As a committed and well co-ordinated team

- **Joint National Technical Teams** created to work with TRCs
 - WWF, WCS, TRAFFIC working with WB/GTI
- **Joint Global Technical team** created to develop global support:
 - STF, Interpol/Cites/UNODC/TRAFFIC/Publicis/Wild-aid, Others?
- **TRC Steering Group** being established by hosts to steer overall preparation, program development and outcomes.
- **Joint resource mobilization team** created.
 - WB/GTI, WWF, others?
- **Pre Summit** in Indonesia in July.

Options

- TRCs Can:
 - Do NASPs on their own; or
 - Do drafts and have Joint National team review it; or
 - Invite Joint National team to National Consultations and review the draft NASP emerging from this process.
- Join Global team and/or review drafts of ideas emerging from Joint Global Team.
- Join RM team and/or review drafts from RM team.
- Review first draft GTSRP package in Indonesia.
- Proposed Program for National Consultations.
- Only 85 days to Pre Summit!

STOP for Q and A

ELF: You lead

- In various sessions did you ask yourself:
 - Where are you in relation to where you want to be?
 - What is needed to fill the gap? Policy/skills/\$\$?
 - Can you do it alone? Who else is needed?
 - How to get others engaged?
- Now an Opportunity to improve both proposed process and products by:
 - Thinking about Political Will, Why? and Tx2.
 - Thinking about critical scale-up needs in your country.
 - The 80:20 Rule.
 - Attempting to Convert ideas into projects.
 - Thinking about Implementation and Monitoring.

Three Group Exercises

- Exercise 1: Review/Improve GTSRP
 - How can it be improved?
 - **What case study of Good Practices from your TRC would you like to include?**
 - What roles would you like to see NGOs perform?
 - **What five Indicators of Results would you suggest?**

Exercise 2: Political Will, Tx2 and 80:20 choice

- How to create political will in your TRC for Tx2?
- Which Kathmandu “Game changing Actions” needed to get you to Tx2?
- What will it take to scale up these Game Changing Actions?
- Remember the 80:20 rule....selectivity to focus effort.
- What combination of Policy/Capacity/Expenditure is needed?

Exercise 3: Good Practice Idea into a project

- Take one GCA and work through the proposed NASP project template
- Reflect on the balance between policy/capacity and expenditure.
- Think about implementation: what roles for potential players.

Four Slides to Report Out in Session #16 by Each TRC

1. How can **Political Will** for Tx2 be best enhanced in your TRC?

2. How can **GTSRP be improved?**

Which Good Practices/success stories from your country would you like to see included?

3. What **Three key Good Practices** need to be scaled up or other actions you need to take, in order to achieve Tx2?
What 4-5 Key Performance Indicators would you recommend to monitor.

4. How can **NASP be simplified/improved?**

Which options would you like to pursue?

How would any GTI financed activities in your TRC to be implemented/executed?

Suggested Topics for Report to Wednesday Panel

- Why?
- How?
- Managing for Results.
- Challenges Ahead.
- Support needed
- Risks.
